

PIPE LAUNCHERS

Mathey Dearman's Pipe Launchers have fully compatible parts that can change from a pipe rack clamping roller to a pipeline launcher in just a few minutes.

The unique clamping system fastens the roller to an I-beam from both sides of the flange.

This option is great for installing and fabricating pipe in pipe racks or other tight and enclosed areas.

Also, the roller mechanism can be attached to a stand better suited for pipeline work and/or directional drilling.
